PROJECTS

Virtual Solution Path

High-performance educational platform with clean UI architecture, and professional client-ready web solutions.

Quaid Public School System

Full-scale School Management System with Role-Based Access Control (RBAC), automated fee tracking, and teacher payroll modules.

Mardaan Store

Production-ready e-commerce platform built with HTML, CSS and JavaScript. Features responsive design, optimized performance, and modern UI/UX.

Hisaab App

Progressive Web App with mobile-first approach, offline capability, and Firebase integration for utility and finance tracking.
